

# Breath Øf Grey

## Instinct

Breath Of Grey stylized as Breath Øf Grey (B. Ø.G.) is an Alternative-Rock Band from Los Angeles, CA, with influences from Bands such as Pendulum, Celldweller, and Linkin Park. Breath Øf Grey consists of Producer/Songwriter DICE (vocals, guitar) and Producer/Songwriter XERO (guitar, bass).

Dice and Xero met in High school where they had several classes together. Dice and fellow Student Max Gal-damez formed the Band "Fatal Beauty" of which they also invited Xero to be a part along with another Student. The Band soon broke up, and Dice and Max formed a new Band "9 Door Empire" of which Xero also was a part of, but also this Band was short lived. Some years later after High School Dice and Xero decided to start a project of their own and Breath Øf Grey was born. They collaborated in writing Songs and took time out to learn the Art of production while working on finding their own original style and sound.

In January of 2013 B.Ø.G. landed a contract with the Los Angeles based Indie Label King Edward Music. The Song "Instinct" is the first fruit of the Band's hard labor, and is the debut Single from the upcoming EP release on November 5, 2013.

Instinct is an Electro based rock song that combines break beats with elements of electronica, and raw instruments such as guitars and bass's. This Unique combination of elements wraps the song up to be a one of a kind experience that the listener will not regret having pressed play for. Instinct is innovate in a way that it gives a new type of sound to both Rock listener and electronica lovers.

Currently B.Ø.G. are working on the completion of their Album. Dice and Xero are very exited about their releases, and are eagerly looking forward to Touring in the USA, Europe, Asia, and many other countries
